

PRAY AI

Problem Statement

Churches are overwhelmed with Counseling needs. People are suffering from a mental health epidemic. Mental health is in greater demand than ever before and prayer and faith is one of the greatest natural tools that people have to combat mental health. We are going to meet the demand by supplying an AI Counselor. Users of the [Pray.com](https://www.pray.com) app can subscribe to our AI Premium plan to get access to our AI Counselor feature.

Feature Objective & Goals

AI Counselor will help people overcome and get through life's challenges with Biblical wisdom. We will measure success by seeing the willingness for people to pay and use the product.

1. MVP Launch by end of June
2. 100 Subscribers in first 30 days
3. 10% increase in ARPU

Feature Description

We will take over a tab on the bottom navigation (Probably Sleep) for Counselor. People will be able to go to this tab and subscribe to start engaging with AI Counselor. There will be no trial for this product. A user can simply start conversing with the AI Counselor to receive biblical wisdom to overcome any of their struggles or simply talk.

Success Metrics

- Number of subscribers
- Number of conversations
- Number of people starting conversations
- Number of Days used a week

Research Insights

15% of all LLM conversations are around counseling, most of which is not Biblically based.

[Pray.com](#) is clinically tested. Also, the number one reason people come to [Pray.com](#) is for some sort of mental health related reason.

All Pastors act as a counselor and therefore all churches provide a counseling service. Some have a formal service and some informal through conversations. However, most have some semblance of a formal counseling service where a member arranges time with a pastor to have a 60 minute session. Many times this is 1 on 1 or with a couple.

1. Executive Summary

Product Name: PRAY-AI Counselor

Tagline: *"Talk. PRAY. Heal. Any time, any day."*

Core Purpose: Faith-based, AI-driven emotional and spiritual support available 24/7 for Christians worldwide.

PRAY-AI bridges the gap between mental health care and faith, offering Biblically grounded, evidence-based guidance for individuals and scalable tools for ministries.

2. Market Opportunity

- **TAM:** 2.6B Christians globally
- **Mental Health Crisis:**
 - 900M Christians impacted by mental health challenges
 - 100M Americans suffer from anxiety and depression
- **Accessibility Gap:**
 - 55% of rural U.S. counties lack mental health professionals
 - 65% of those seeking help report faith plays a positive role in recovery

3. Value Proposition

For Consumers:

- Biblically integrated mental health support
- Always-on availability
- Personalized PRAYers, devotionals, and emotional guidance
- Seamless integration with the [PRAY.com](#) app

For Ministries & Leaders:

- Tools for AI-based pastoral care
- Scalable outreach via AI agents
- Web embeds and off-platform engagement capabilities

For Investors:

- First faith-integrated AI counseling platform
 - Multi-channel monetization: subscriptions, B2B licensing, branded AI agents
-

-

5. Positioning by Audience

Consumers

- *“The best way to tackle life’s challenges”*
- Always-available faith-driven emotional support
- Taglines:
 - “Talk. PRAY. Heal. Any time, any day.”
 - “Spiritual support, rooted in faith — now just a tap away.”

Church Leaders

- *“The future of faith-based care is here — and it’s Biblically rooted.”*
- Extends ministry reach 24/7 globally
- Facilitates digital pastoral care without replacing human connection

Investors

- *“The Next Frontier in Mental Health”*
 - Defensible, scalable model with multi-channel revenue streams
 - Strong competitive moat with faith-first integrations
-

6. Key Differentiators

- First AI platform fully integrated with Scripture and pastoral wisdom
 - Accessible anytime, anywhere — even in underserved regions
 - Designed to complement ministry efforts, not replace them
 - Evidence-based AI and peer-reviewed research underpinning the platform
-

7. GTM Highlights

- **Launch Timeline:** MVP in Q3 2025; advanced features in Q4 2025 and beyond
 - **Primary Channels:** [PRAY.com](https://prayer.ai) app, web integration, ministry partnerships
 - **Marketing Hooks:**
 - “Silicon Valley’s answer to the Christian mental health crisis”
 - “Finally, an AI that comes alongside you – not just respond to you.”
-

8. Pricing & Revenue Model

- **B2C:** Subscription-based model for individuals
 - **B2B:** Licensing for ministries, usage-based tiers
 - **Add-ons:** Branded AI agents, audio/video call packages, web embed fees
-

9. Sales Talking Points

- **Lead with Empathy:** This is about hope, healing, and faith—not just tech.
- **Address Accessibility:** “55% of rural counties lack mental health professionals — PRAY-AI fills the gap.”
- **Highlight Safety:** AI is a digital extension of pastoral care, aligned with Scripture.
- **Demonstrate ROI for Ministries:** Increases engagement, drives member retention, opens monetization pathways.
